DETAILED ACTION

Election/Restrictions

Applicant's election of Group I in the reply filed on 03/31/2008 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

REJOINER

Group I, Claims 1-5, 8 and 9 drawn to compounds of formula (I) wherein $R_1 = R_2 = R_3 = H$ are examined.

Non-elected claims relating to process of making compounds of the above group and claims relating to the method of treating diseases using compounds of the above group are rejoined.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William F. Gray on 04/16/2008. Note that claim 5 is redundant and therefore deleted.

DELETE	Claims 5, 7, 10-14
DELETE	Claim 1, line 33
INSERT	Claim 1, line 33, —R1, R2 and R3 are hydrogen;—
DELETE	Claim 1, numbered page 119, lines 1, 2

Claims 1-4, 6, 8 and 9 are allowable.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: The compounds of the instant claims are free of prior art. The closest prior art Bioorganic and Medicinal Chemistry Letters, 14 (2004) 455-458, Bioorganic and Medicinal Chemistry Letters, 14 (2004) 3411-3414 and Bioorganic and Medicinal Chemistry Letters, 14 (2004) 4383-4387 describe benzofuran derivatives for the treatment of cancer. There is no suggestion or motivation in the prior art to replace the OH group on the benzene of the bicycle of the prior art with H.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
